Small Avalanche in Bridger Bowl

Bridger Bowl
Bridger Range
11/8/2022
Code
SS-AS-R1-D1-I
Elevation
7600
Aspect
NE
Latitude
45.81700
Longitude
-110.92400
Notes

Small slab avalanche triggered by skier in a small chute near The John and Bronco runs in Bridger Bowl. Propagation from skier's ski, slab slid down through the chute. Crown maybe 10 feet wide. Slab looked about 6 or 7 inches thick. Looked like a layer of new snow from today and yesterday's storm sliding on top of an old crust layer. Nobody harmed, just spooked. Watch out!

Number of slides
1
Number caught
0
