

Skier triggered avalanche in Bradley's Meadow

Bradley Meadow

Bridger Range

1/6/2021

Code

SS-AS-R1-D1.5

Elevation

8000

Aspect

S

Latitude

45.83220

Longitude

-110.92800

Notes

I was skiing down the apron at Bridger and noticed this [slide](#) on Bradley's that appeared to be skier triggered. Picture's were taken at about 2pm. I don't believe this activity was there when I came down the apron earlier in the day around 11:45. I talked to patrol about it and they had not heard anything about it at the time. It appeared both tracks going in, came out. Thanks for all the work you guys do!
