

West Yellowstone Lake Hebgen

Date

Mon, 03/08/2021 - 16:14

Activity

Skiing

Dug a pit on the lower chute to the left at 1100 AM. We had a 140cm snow depth. ECTP 22 @ 30 cm and another one at ECTP30 @ 60cm. Slope was 28 degrees, east facing, elevation of 7500', partly sunny area. Decided to stay in trees and lower angle slopes.

Region

Lionhead Range

Location (from list)

Hebgen Lake
