

Frazier Lake

Date

Thu, 11/25/2021 - 11:00

Activity

Skiing

Dug a pit at 8200 ft on a NE aspect below the The Things. Snowpack averaged 70 cm in depth. No signs of instability in the ECT. Layers were all 1F to 4F in hardness. Skied 2 different NE facing couloirs and experienced firm conditions with no signs of instability.

Region

Bridger Range

Location (from list)

Fairy Lake

Observer Name
