

West ridge beehive basin

Date

Sun, 01/09/2022 - 11:40

Activity

Skiing

Skier triggered cornice failure avalanche. Broke at skis 10-12 feet from the lip. No one caught or injured. Full snow profile from a couple hundred feet down the ridge on a similar ESE aspect. Coordinates in this entry are to cornice failure. Coordinates listed in snow profile are to pit location. Please don't include the photo of snow profile in any posting. I have a video that I am unable to upload here. Please feel free to reach out with any questions or if you have another way I can send you the video. Thank you.

Region

Northern Madison

Location (from list)

Beehive Basin
