Bridger Range
4/25/2023
Code
WL-N-R2-D2
Elevation
7800
Aspect
E
Latitude
45.81560
Longitude
-110.92300
Notes

Yesterday 4/25, Walked to the top of Pierre's Knob. The snow was unconsolidated mush, very sticky skiing. While hanging out at the top shack (at 1130am) I heard 3 large avalanches running in the south bowl, white out conditions so was unable to see how big the slides were they sounded like they ran a long ways.

Number of slides
