

Cooke City snow obs and widespread collapsing

Date

Fri, 12/08/2023 - 15:40

Activity

Skiing

From email:

"We skied in Republic Creek and Hayden Creek today.

No avalanche activity observed, but we had very widespread collapsing (about 20 large thunderous ones), on all aspects, primarily in the upper elevations.

[Snowpit](#) attached from a west [aspect](#) at 9700'. HS: 90. ECTP3 @ 54."

Region

Cooke City

Location (from list)

Republic Creek
