

Not a great testament to the snowpack

Date

Fri, 01/05/2024 - 12:00

Activity

Skiing

Surface Hoar all over including just below the new dusting of snow. Test on a northeasterly facing slope at 8000ft, had an ECT N at about 20 hits. It failed on a crust approx 10-15cm off the ground.

Region

Southern Madison

Location (from list)

Telemark Meadows
